

| Chickering and Gamson's Seven Principles for Successful Teaching | | Implementation in Career Planning |
|--|--|--|
| 1 | Encourage Contact Between Learners and Faculty | Teachable.com and Facebook– share resources, create discussions and teacher to encourage communication |
| 2 | Develop Reciprocity and Cooperation Amongst Learners | Social constructivism using peer learning – start and promote group discussions |
| 3 | Use Active Learning Techniques | Use of discussion to enable learners to be actively involved in learning process. Promote reflection and/or blog, role plays, problem based scenarios (Malcolm Knowles). |
| 4 | Gives Prompt Feedback | Instant feedback using quizzes e.g. multiple-choice, simulation. Promotes motivation |
| 5 | Emphasises Time on Task | Tasks must be timed and align with learning outcome. Not a high priority due to basic level of course |
| 6 | Communicate High Expectations | Setting attainable goals. Using SMART (Specific, Measurable, Attainable, Relevant and Time-Bound) goals. Biggs Constructive Alignment |
| 7 | Respects Diverse Talents and Ways of Learning | Acknowledge different learning styles by providing varied methods e.g. interaction, videos, ebook, printable resources |
